## PhiBrows Microblading & Shading

PhiBrows is famously known worldwide with their technique and skills, and with our runner up microblading technician of the year 2018, we are proud to offer this here at The Nails Boutique.

Microblading is a form of semi-permanent tattoo artistry that manually draws hair-like strokes to mimic natural hairs giving natural fullness and shape to the brows. This is done with a manual tool inserting pigment into the upper layers of skin, potentially lasting between 15-18 months.

Shading is done resembling to eyebrow pencil/powder. This technique can also achieve ombre brows or combined with microblading, it will give you more definition. Our most popular treatment.

Treatment includes complimentary top-up booked within 4-6 weeks after treatment.

Consultation 30 mins	Free
Microblading	£300.00
